## EDUCATION

**University of Karachi (DCS – UBIT)**                                                                          Karachi, Pakistan
Bachelors of Science in Computer Science                                                                          (2020-2024)

## PROJECTS

**Learning Management System (LMS)** 🔗 Developed a feature-rich Learning Management System using Chakra UI, PostgreSQL, React.js, and Express.js, enabling seamless course management, student enrollment, and progress tracking.

**Client's Portfolio Website** 🔗 Created a captivating and responsive client portfolio website, leveraging React.js, JavaScript ES6, CSS3, and HTML5 to highlight their work, skills, and achievements.

**Record Keeper App** 🔗 Designed and implemented a web application for data record keeping, empowering users to efficiently store and manage data. Developed using React.js, Node.js, Express.js, PostgreSQL, and Material-UI.

**Queuing Model** 🔗 Developed a queuing model web application using React.js and Material-UI, enabling simulation and analysis of queueing systems to optimize efficiency.

**The Seekers Website** 🔗 Created a user-friendly surveying website with HTML, CSS, and JavaScript, allowing visitors to easily fill out surveys and learn about our mission and objectives.

**GitHub Finder** 🔗 Built an application that utilizes the GitHub API to search for and display user profiles, repositories, and their contributions, providing an intuitive interface for exploring GitHub data.

## PROFESSIONAL CERTIFICATIONS

**McKinsey Forward Advance Level** 🔗 Achieved proficiency in strategic problem-solving and data analysis through this program, demonstrating expertise in applying business transformation strategies to drive impactful solutions.

## SKILLS & COMPETENCY

**Technical Skills:** HTML, CSS, JavaScript, Reactjs, Nodejs, Expressjs, SQL, C++, Python, Git, MUI, AntD.
**Soft Skills:** Statistical & Analytical skills, Leadership, Project Management, Communication, Writing.

## EXTRA-CURRICULAR ACTIVITIES

**Google Developer Student Clubs – UoK** (Core Team Member)                                                                          (Sep 2022 - Present)
**Karachi University Debating Society** (Member of Parliamentary Debates)                                                                          (Nov 2021 - Present)

## ACHIEVEMENTS

**CODEBIT** 🔗 (Achieved 6th Position in the speed programming Competition by "WANZ International Technology")
